 <p>The image shows the Phonak Roger Pen, a silver, pen-like amplified conversation listener, and its charging base, which is a small black rectangular device with a coiled black cable.</p>	<p>L450 Phonak Roger Pen and MyLink Receiver £616.00 exc VAT L431 Roger clip-on mic (now available for demo) £289.00 exc VAT L401 Telephone adaptor £25.00</p> <p>An outstanding amplified conversation listener with superb sound and unique speech enhancement technology that can transform your ability to hear again.</p> <p>The intelligent microphone knows how you are using it and can be used as a body worn microphone for one to one conversations (ideal in the car, out shopping or in busy restaurants), as a directional microphone (for picking up sound from a guest speaker or lecturer) or placed on the table to pick up multiple conversations (perfect for family or small group meetings).</p> <p>The Roger system is very easy to use as it switches between different types of sound pickup automatically. It has a Bluetooth connection to help hear calls on your mobile clearer.</p> <p>The charging base can be connected to either the TV or a landline telephone (telephone accessory is an optional extra)</p>
 <p>The image shows a hand holding the Bellman Mino, a white, handheld amplified conversation listener with a neckloop and various control buttons.</p>	<p>L394 Bellman Mino with neckloop £176.66 exc VAT</p> <p>A high-quality amplified conversation listener with top-of-the-range sound technology for a very reasonable price.</p> <p>The Bellman Mino has digital sound processing, helping to reduce background noise and improve speech clarity. It also has a choice of directional or omni-directional sound pickup. It comes with a neckloop for use with hearing aids on the "T" or loop setting</p> <p>Directional microphone to point at the person talking Omni-directional microphone, useful to hear a group conversation Customise the sound to suit your needs with adjustable tone, volume and balance controls</p>
 <p>The image shows two white Bellman Domino Classic devices: a receiver with a neckloop and a transmitter with a neckloop, both featuring control buttons and a microphone.</p>	<p>L393 Bellman Domino Classic £410.24 exc VAT</p> <p>Domino Classic is a wireless personal hearing system that uses digital state-of-the-art sound processing and wireless technology to bring out speech in difficult listening situations. This model is supplied with neckloop and earphones.</p> <p>Domino radically improves your hearing at home, at work, at school, outdoors, in the car and when you are watching TV. It reduces background noise and overcomes the difficulties of listening at a distance. You can hold or wear the receiver and hear through the built-in microphone, but you can also hear sounds through the transmitter microphone. This means you can give the transmitter to a friend, colleague or relative and hear them as clearly as if they are talking in your ear, even if they are standing up to 100 metres away (outside) or 25 metres away (inside).</p> <ul style="list-style-type: none"> • Volume and tone control • Omni-directional microphones in both the receiver and transmitter • Works on a frequency that can be used anywhere in the world • Coded transmission for better confidentiality • No handling noise due to a special internally suspended microphone • You can listen to the TV, or a conversation, or both of them at the same time • Built-in rechargeable battery with 8-12 hours use from 2.5 hours charge • Operating range up to 25m inside and 100m outside • 2 year warranty on the main unit (90 days on the neckloop and ear buds)
